

A groundbreaking approach to delivering

SAFE, CLEAN DRINKING WATER

to First Nations Communities

Background

Keewaytinook Okimakanak, in cooperation with Shibogama First Nation Council, Windigo First Nations Council and the Independent First Nation Alliance, has recently been approved for expansion of its Safe Water Project to include an additional 14 First Nation communities.

The Safe Water Project is in essence an Operational HUB that focuses on the Professional Development of First Nations operators at the community level.

The abovementioned group of Tribal Councils requires two additional staff to meet the deliverables of the project.

Minimum Staff Requirements

To deliver the services to the recently added communities, the Safe Water Project requires personnel with the following minimum credentials:

- Water Treatment Subsystem Class II Certification – Province of Ontario
- Wastewater Treatment Subsystem Class I License – Province of Ontario

Operators with Water Distribution and/or Wastewater Collection credentials in addition to those stipulated above will be considered favourably.

Duties/Responsibilities

Under the direction of the various Tribal Council leads, the Safe Water Project personnel will:

- Provide operational oversight services to the First Nations;
- Deliver Circuit Rider Training services to the First Nations;
- Conduct Annual Performance Inspections for the facilities being served;
- Participate in the preparation and Implementation of Operational Budgets;
- Develop and implement work plans for the local operators;
- Develop and implement sampling and record keeping regimes for each facility;
- Develop training plans for individual operators designed to fast track Certification of said operators;
- Provide monthly progress reports to the Tribal Council leads.

Job Specific Requirements

Extensive travel to Northern First Nation communities is a job requirement. Extended overnight stays in these communities will also be required.

All travel related expenses will be reimbursed based on Treasury Board of Canada expense rates. All travel starts in Sioux Lookout.

Summary

This is a full time contract position. Salary will be determined based on the applicants Level of Credentials and related work experience.

Interested operational personnel can forward their resume with copies of their current credentials to:
